## R Notebook

The R plugin for IntelliJ-based IDEs provides handy capabilities to work with the R Markdown files. To add a new R chunk, position the caret at any line or the code chunk, then click "+".

The code chunk appears:

```
library(ggplot2)
data(DNase)
dNase_2 <- DNase[seq(1, nrow(DNase), 2),]
ggplot(DNase) + geom_point(aes(x=conc, y=density))</pre>
```

Type any R code in the chunk, for example:

```
mycars <- within(mtcars, { cyl <- ordered(cyl) })
mycars</pre>
```

```
##
                        mpg cyl disp hp drat
